WallynZavys's **Autistic Kids Can Do** summer program picks up right where Extended School Year (ESY) leaves off — keeping children and teens ages **5–18** engaged, growing, and thriving all summer long. Our structured, fun, and therapeutically grounded sessions are designed to maintain the momentum built during the school year while helping each child explore new skills in a warm, safe, and supportive environment. Whether your child is working on social skills, life skills, creative arts, or STEM discovery, we meet them exactly where they are — and help them reach even further.

Snack/Drink/Activity will be provided by WallynZavys
